

Course calendar
PHYS 6350: "Mathematical Physics I"
Fall 2026

Topics: (tentative list)

Review of vector calculus

Linear algebra, eigenvalue/eigenvector problem

Complex analysis

Fourier analysis, Fourier transforms

Boundary value problems: differential operators, Green's functions, orthonormal functions

Probability and statistical inference

Important dates:

Wed, Aug 26, 2026: 1st day of classes

Mon, Sep 7, 2026: Labor day holiday

Thu, Fri Nov 26, 27, 2026: Thanksgiving holiday (no classes)

Thu, Dec 3, 2026: study day, no classes

Fri, Dec 4 -Thu, Dec 10, 2026: Final exam week

Exam dates:

Exam 1: Thu Sep 24, 2026

Exam 2: Thu Oct 15, 2026

Exam 3: Thu Nov 5, 2026

Exam 4: Tue Dec 1, 2026

Oral final: Tue Dec 8, 2026
